

June 15, 2004

To The Editor

The CFF, Committee to Free Flamborough, has been working diligently to supply current information to the petitioners for the de-amalgamation of Flamborough.

In this regard we are again contacting our MPP, Ted McMeekin, with an urgent request that he agree to a meeting with the CFF. Our latest request, by letter and email, for a meeting made on June 14, 2004 states that “we would like to meet with you to discuss some of the points mentioned in your letter. This is of the utmost urgency and requires that we meet with you this week.”

The CFF, on June 8, 2004 received from Ted McMeekin the official response to the Flamborough petition presented to the legislature in December 2003.

We will endeavour to inform the petitioners of the results of this meeting and the official response as soon as possible.
